

# EV1250 - PRODUCT DATA SHEET

## Marine & Leisure Li-ion Battery 12.8 V – 96 Ah – 1250 Wh BLUETOOTH AND INTEGRATED HEATER

### Electrical specifications

Nominal voltage	12.8 V
Nominal capacity	96 Ah
Rated energy	1250 Wh
Internal resistance	<30 mΩ @ 50% SOC
Cycle life* (80% DoD)	>4000 cycles
Cycle life* (100% DoD)	>2000 cycles
Parallel connection	Yes, up to 4 units
Serial connection	Yes, up to 2 units

\* Standard charge @25°C

### Discharge specifications

Application	Equipment
Max discharge (continuous)	100 A (1 C)
Peak Discharge	300 A @ 3.5s
Discharge temperature range	-20 °C to 60 °C

### Charge specifications

Charge voltage range	13.6 – 14.6 V
Max charge voltage	14.6 V
Float voltage	13.8 V
Max charge current	100 A
Charge temperature range	-20 °C to 45 °C

### Standard charge (recommended)

Charge method	CC-CV
Charge current	30 A (0.3 C)
Charge voltage	14.6 V
Cut-off current	5 A (0.05 C)

### Mechanical specifications

Dimensions (LxWxH)	355x176x190 mm
Weight	10.7 kg
Terminal type	EN Taper
Polarity	ETN0
IP rating	IP54
Cell chemistry	LiFePO4

### Storage specifications

Ideal long term storage temp.	15 °C to 35 °C
Short term storage temp.	-20 °C to 50 °C
Self discharge	15 % per year

### Battery monitor functions (mobile app)

Battery status and alarms	YES
State of charge (SOC)	YES
Battery voltage	YES
Charge / discharge current	YES
Estimated recharge time	YES
Battery temperature	YES
State of health (SOH)	YES
Cycle counter	YES

### BMS self protection

Over charge voltage	YES
Over charge current	YES
Over discharge voltage	YES
Over discharge current	YES
Over discharge current (peak)	YES
Short circuit protection	YES
Over / under temperature	YES
Automatic cell balancing	YES
Automatic pre-charge heating <0 °C	YES

Note: Refer to User Guide for full detailed specifications
