

# Regali CHE cambiano IL futuro

This year, **Exide Technologies** would like to wish you Happy Holidays in a unique way, dedicating a donation to UNICEF. This tangible gesture will provide a complete therapeutic milk cycle to 461 children suffering from severe malnutrition.

Currently, more than 148 million children under the age of five suffer from chronic malnutrition, while 45 million suffer from acute malnutrition, 13.6 million of them in a severe form. The nutrition crisis mainly affects countries characterized by extreme poverty or conflict, such as Ethiopia. UNICEF works to ensure high nutritional value meals, implement prevention and treatment interventions against malnutrition and promote good nutrition programs, such as breastfeeding.

This gift donated by **Exide Technologies** will make a difference in giving children a chance to have a better future.

**Merry Christmas and Happy New Year!**

**Carmela Pace**  
Presidente UNICEF Italia
