

GNB FLEET® UP YOUR UPTIME

YOUR BENEFITS

Move more goods

Higher fleet efficiency

Higher productivity

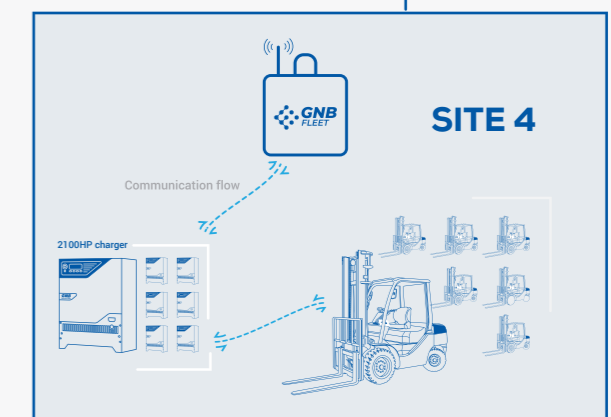

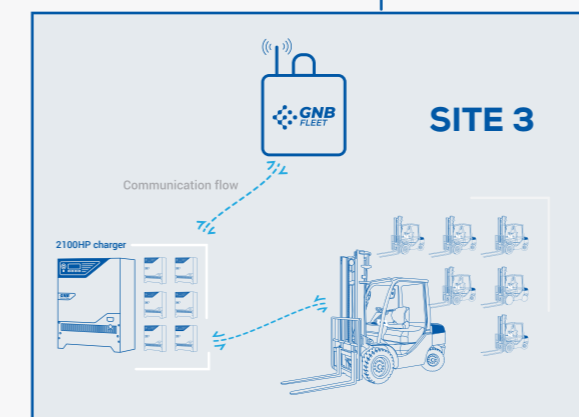

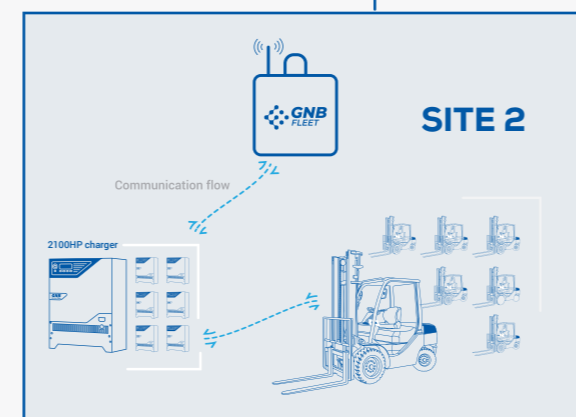

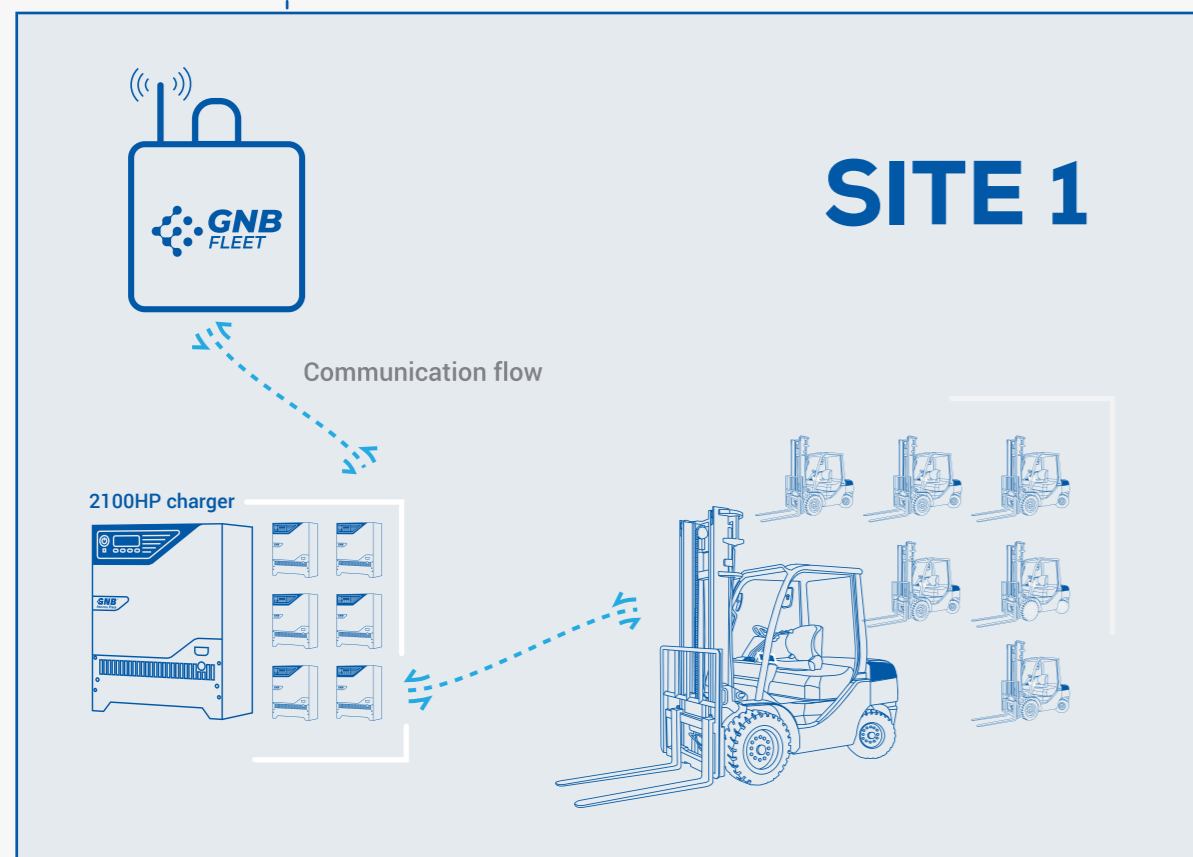

Reduced total cost of ownership

- Monitoring of battery and charger vital parameters, everytime from everywhere
- Automated alarm emails for logistics management
- Corrective actions for maximum fleet uptime

Multi-site management possible

Let your equipment call you before it's too late

GNB Fleet® means maximum fleet uptime. Whether you have one site or many, our smart connected chargers provide GNB Fleet® with vital battery and charger information. Our next generation of fleet management detects issues with batteries or chargers well before your business is affected. Why wait until it's too late?
