3887915 Electrolyte Level Sensor

Electronic sensor for measuring electrolyte level. Green light blinks when correct level.

Red light blinks when level is too low. Version with or without dashbord indicator.

Thermometer for measuring electrolyte temperature.

3805484
Thermometer.

3801548
Thermometer,
red alcohol.

Hydrometer for measuring electrolyte density.

3802417
Hydrometer GEFO Centra.

3802418
Hydrometer with thermometer.

3805491
Acid suction
with 5 L can.
With manual
pump.

3868054
Acid suction
with 6 L can.

3801546
Rubberball
with spout.

3805489
Electrical Acid pump.
Used for emptying cells and/or trays.

3950037
Ejector pump.

3840821
Acid suction,
manual
(hypodermic
syringe) app.
300 ML.

Servicebox with hydrometer, safety goggles, gloves, servicebook and charging instruction.

3802130
Servicebox.

3802132
Safety
goggles.

3868052
Eyewash
tube for
wall
mounting.

Battery Accessories

GNB Industrial Power

3851515
Eyewash case, with goggles, gloves etc.

3868029
Cabel puller
0,5-0,9 KG.

3868030
Cabel puller
0,9-1,8 KG.

3868031
Cabel puller
1,8-2,7 KG.

3802138
Safety rubber gloves.

3868033
Lifting handle for EPZS.

3868034
Lifting handle for EPZB.

3801607
Carrystrap for Monoblock.

3868035
Pole grease.

Exide Technologies, with operations in more than 80 countries, is one of the world's largest producers and recyclers of lead-acid batteries. Exide Technologies provides a comprehensive and customized range of stored electrical energy solutions. Based on over 100 years of experience in the development of innovative technologies, Exide Technologies is an esteemed partner of OEMs and serves the spare parts market for industrial and transportation applications.

GNB Industrial Power – A division of Exide Technologies – offers an extensive range of storage products and services, including solutions for telecommunications systems, railway applications, mining, photovoltaic (solar energy), uninterruptible power supply (UPS), electrical power generation and distribution, fork lifts and electric vehicles.

Exide Technologies takes pride in its commitment to a better environment. Its Total Battery Management programme, (an integrated approach to manufacturing, distributing and recycling of lead-acid batteries), has been developed to ensure a safe and responsible life cycle for all of its products.
